

## **Pennsylvania State Mandated Grade Level Screenings**

Please be aware that there are state mandated screenings dependent on the grade level of your child. In the school system these screenings are performed by the school nurse. Screenings include height/weight ( all grades yearly), vision (all grades yearly) , hearing (K, 1, 2, 3, 7 and 11), scoliosis (6,7).

Please submit proof that these screenings are performed if you prefer to have them done privately. (Note: Signing the Affidavit of the Supervisor of a Home Education Program is NOT sufficient to satisfy state requirements. Actual screening report(s) by the appropriate professional is required.)

If you would like the school nurse to complete these yearly screenings please contact the nurse noted below by September 15th to schedule a screening.

Other screenings include **dentals** ( required on entry in K or 1st, and 3, 7) and **physicals** (required on entry in K or 1, and 6,11 ).

Please submit proof of completed exams. If you would like these done by our school doctors please contact the nurse by September 15th for more information.

Please see attached forms including religious exemption, private dental form, private physical form, and required immunizations dependent on grade/age.

Thank you for your cooperation,

Nikki DeMarco
